Description

A 5 Watt Mobile Radio, complete with power lead, mounting bracket and speaker microphone. Programmed to 5 Watt as default but can be set to 25 Watt if you have the appropriate license. This durable, high quality UHF Mobile Radio from Mitex is a great addition to their radio communications range. In keeping with their high standard of quality and durability that we've come to expect from Mitex, this mobile radio is ideal for all existing users of Mitex licensed handheld radios. Designed for individuals requiring vehicle use or business users requiring an "in vehicle" communication need along with handheld users. This professional unit includes many applications and features to provide you with an easy yet reliable communications set up.
